About twenty me this afternoon. Many of them were Grand Army veterans, on their way to Cleveland to attend the National Encampment. Among the persons of distinction were General Paul Vandervoort, of Omaha, former Commander of the Grand Army, and General Nathan Kimball, of Salt Lake-City. General Vandervoort has received instructions from the Republican National Committee to g. East to fill appointments for speeches in New-York. New-Jersey and Connecticut, and late in the campaign he will come to Indiana to deliver a few speeches. He assured General Harrison that he was confident from private information he had received from the Republican chairman in Oregon that there is no doubt of that State giving the Republican ticket an overwhelming majority. The miners and stock owners feel that the Mills bill would, if it should be made a law, seriously injure Richmond: their business interests, and there are a great many Democrats who will vote the Republican ticket. General Kimball is an old friend of General Harrison and it is his opinion that the Pacific States

In addition to the gains from the Democratic vote, however, it is General Kimball's opinion that enough Eastern Republicans have settled in the Pacific States in the last four years to make them overwhelmingly for Harrison .. "The Democrats in the East," he said, " are having a great deal to say about the Chinese question, a thing that they know nothing about. Out on the Slope it that they know nothing about. Out on the Slope it is the common behef that General Harrison is not only opposed to admitting cheap Chimese labor to the country, but he is also unwilling to allow them to send their cheap goods over here, while the Democrats profess that they want to shat out the Chimese, but under free-trade doctrine are ready to let in their cheap goods in competition with the American laborer. General Kimball says that he knows of hundreds of Democrats who say they will vote for General Harrison and in the Territories it is a common thing to hear them expressing regret that they are deprived this year of the right of voting with the Republicans for President.

Witham Dudley Foulke, who returned this morning from a trip through Indiana, said that he had been greeted by large crowds wherever he had spoken, and that the greatest enthusiasm is manifested by the Republicans. In every county that he visited he was not only told of from fifty to a hundred Democrats who would vote the Republican ticket, but he was introduced to many of them. His observations have made him confident of a victory.

In all efforts of the laboring classes that critisted the moral forces of the country, the working people had his h-a-tiest sym-pathy. In the latter part of August Edward P. Dovie, secretary of the New-York Free Trade Club, sent to Edward H. Ammidown, president of the American Protective Tariff League, a challenge for a public debate between Henry George as a representative of the former club and an antagonist of equal reputation to be selected by the latter. In connection with the debate the name of Robert G. Ingersoil was suggested by Mr. Doyle. On September 2 Mr. Ammidown, in a reply to this letter, and Colonel 7 Mr. Ammidown, in a reply to this letter, said Colonel Ingersoil was mable by reason of his professional engagements to meet Heary George, but that he was authorized to state that ex-Judge F. O. Willey, at No. 145 East Fif. teenth-st., was willing to engage in joint debate with the proposed free-trade champion.

dward J. Schriver, chairman of the General Committee of the Free Trade Club, answered this yesterday. In his letter he makes the excuse that ex-Judge Willey's name " is not familiar" to the club, and consequently Mr. would not care to go into the debate with him. Then Mr. Schriver suggests some Republicans with who

NEGRO REPUBLICANS IN FORT BEND COUNTY, TEX., EXILED UNDER PAIN OF DEATH. Richmond, Tex., Sept. 8.—The white Democrats have triumphed and the negro Republicans ordered black men were forced out of the county at the muzzle of Winchester rifles. The most prominent exiles are C. M. Ferguson, district cleat; H. G. Lucas and Peter Warren, school teachers. The war grew out of the attempt made on Monday night to assassinate H. H. Frost, a white Democrat. While he was on the way from his store to his house he was way-laid and shot. His wounds were considered fatal, and a pack of bloodhounds was put on the trail to the negro quarter of the town and to the house of John Ervin. Eavin and his son and a school teacher, Denovan, were arrested. No attempt was made to lynch them, as it was not certain that they were the guilty men. H. F. At Damariscotta Mills, a halt was made in respon to the demands of a crowd

had gathered at the car door where Mr. Blaine was received with cheers. The destination of the party was reached at 2 o'clock in the afternoon. The depot platform and every avenue of approach was packed with a dense throng of people. A meeting was held in the open air on Post Office Square, where a stand had been erected for speakers. Mr. Blaine drove through the crowded streets to the stand where five thousand people were present. Notwithstanding a brisk rain-sterm came up, the people thronged about the stand to listen to the distinguished speaker, who was obliged to speak beneath a leaky canvas with the rain sifting into it. Mayor White presided and introduced Mr. Blaine, who spoke eighteen minutes, the audience giving close attention. Mr. Blaine was followed by Mr. Frazier and General King.

At 3 p. m. he departed from Rockland on his return, and going as far as Damariscotta, thirty-two miles away, again haited and was met at the station by a uniformed company and a band. He was escorted to Lincoln Hall and addressed another large audience briefly. The speakers who followed were General James Beaver and Mr. Me-Comas. The City Committee later on leased the hall for the same evening from one of the owners, who was not aware of a previous engagement. When it was ascertained that "The Hearts of Oak" company had a claim it was thought that they would give up the hall to the Republicans for a consideration, but to-day they refused to do so. Chairman Wakefield, of the city Committee, is certain that the Democrats have had a hand in having the hall occupied, gurchasing tickets liberally so that the company would not give up its show. In other ways they indeavored to prevent the holding of the meeting. As there was no hall unoccupied Mr. Blaine did, not speak in Bath and goes home to night.

During the campaign he has made twelve speeches in eleven counties and travelled 2,000 miles.

EX-PRISONERS OF THE WAR ORGANIZING. An association of veteran Union soldiers who sur-vived the hardships of Andersonville, Libby and other rebel prisons during the War has been formed for the purpose of uniting upon a plan for perpetuating the memory of comrades who died in the military prisons of the Southern Confederacy. The title of the association, it has been decided, shall be the "Union Prisoners of War National Memorial Union." The following committee has been appointed to draw up articles of neorporation: C. Hull Grant, Joseph N. Allen, J. L. Killgore, George W. Farr and Frederick W. Rowe The general sentiment seems to be that the memorial should take the form of a building devoted to some use ful purpose in harmony with the benevolent objects usually sought by veteran societies and organizations If a building shall be decided upon, it will probably be erected in the town or city offering the greatest in-ducements. Many comrades think that it ought to be in Washington. A general meeting of ex-prisoners of war will be called as soon as the details of the plan have been perfected and are ready for presentation.

THE COLOR LINE IN BROOKLYN SCHOOLS. With regard to the color difficulty in Intermediate Grammar School No. 70, of Brooklyn, William H. Maxwell, Superlatendent of Public Instruction, said yesterday: "Not long ago Mr. Edwards, the principal of the school, asked me if he was obliged to admit he has refused them he is legally right in his action. Some years ago the Board of Education passed a reso-Intion allowing colored pupils admission to any of the public schools, but as the resolutions of the Board are only valid after one year this one is not now in force reasurer, Albert Meisel. Fred Bessler, John A. Bond and principals of schools may, at their discretion insist upon colored pupils attending only such schools as are provided for them The Court of Appeals has decided that 'white' schools are not compelled to adm't colored children, and there is nothing to pre-vent such schools as object to their presence from tefusing them."
